Qube Studios offers top-notch film production facilities and services for professionals in the industry. Our services include studio rental with a soundproofed space, motorized grid system installation, equipment rental, and professional lighting design. We provide a comprehensive inventory of camera, lighting, grip, and other equipment to complement our studio rental services. Our studio is designed to optimize the filming experience, featuring a cyclorama wall, LED lighting, and a G&E kit. With years of experience and a team of experts, we guarantee exceptional service and facilities to bring your production vision to life.
